TESTIMONIES

Well we're back home and doing fine, thanks to you and your wonderful Hospital. It is amazing how professional you and the staff performed your duties. I don't think we could have received better care anywhere and feel lucky to have been taken to the Hospital where you practice. It is refreshing in today world to know that Doctors and Nurses still care about people instead of just money. Every person makes us feel special. I also noted that you treated the local people with the same compassion, as you treated us. This tells me that you are genuine. You kept us informed and explained everything to us. The people at the Royal Caribbean must have great faith in your fine Doctors and Nurses. I don't think we could have eaten better food, as it was delicious. At no time did we feel any anxiety about being away from home after meeting with all of you.

Cherie saw her Doctors and all of them remarked what a beautiful job you and your team did. I can't

remember all the names, but believe us we thank each and everyone of you. After being there for 6 day think we saw you not only as Doctors and Nurses, but as new friends. I also want to thank the Doctors a nurses on Independence Of The Seas who gave Cherie the chance to get to the hospital in the first plac
Forever Grateful, Cherie and Charlie your Florida Friends.
