CCSVI for MS in Cozumel, Mexico Step by Step

June 10th, 2014

Dear Clinics of the Heart Patient,

We are pleased that you have chosen Dr. Rafael Moguel's Clinics of the Heart to have your CCSVI/MS procedure performed with us at our facilities in the modern Costamed Hospital in beautiful Cozumel Island in Mexico.

By now, you have given us the information we require regarding your condition and your needs to provide you with the finest medical care and travel logistics to make your journey a pleasant, seamless and successful one.

The following is a summary of what you can expect during your "Liberation Vacation" at Clinics of the Heart in Cozumel.

Day One

Upon arrival at the airport (either Cozumel direct or via Cancún International) your Clinics of the Heart/Costamed Hospital patient coordinator will meet you and transfer you to your selected hotel.

Most of our patients stay at the Coral Princess Resort that is beachfront, offers great value and service. The resort is rated 4 stars. Once you have checked in the hotel, your patient/treatment coordinator will provide you with information regarding your medical procedure and any questions you may have about the destination. Prior to the procedure, Dr. Moguel will have a one on one with you, he will go over the procedure with you and what you should expect.

Day Two (Procedure day)

Depending on the time your procedure is scheduled, your patient/treatment coordinator will pick you up at the hotel two hours prior to your scheduled procedure time. Upon arrival to the hospital, you will be asked to fill and sign the necessary patient consent forms and you will be prepped for the procedure. The CCSVI venoplasty usually takes about 2 hours. After the procedure, you will rest for a few hours in the hospital and after a follow-up post procedure evaluation you will be taken to your hotel.

Day Three

After breakfast, the doctor will stop by to see you and evaluate your condition, make sure that everything is fine and he will allow you to return home. Most of our patients arrange for a one week (seven night) stay, this is to take advantage of the airfare frequency/airfare structure.

The cost of the CCSVI venoplasty procedure for MS is \$6,500.00USD

No deposit or pre-payment is required, payments are made at the hospital prior to the procedure.

Procedure confirmation is made upon receipt of airline flight itinerary.

Cost does not include hotel accommodations, airfare or meals.

For more information regarding this procedure you can call toll free 24/7 dial 844-620-9698 or email info@cardioabroad.com
