Cardiac diseases

Left heart catheterization

Diagnostic coronary angiography

Coronary angioplasty and stent placement

Chronic coronary heart disease

Acute coronary syndrome

Unstable angina

Acute myocardial infarction

Thoracic aorta angiography

Aortic valvuloplasty

Percutaneous aortic valve implantation

Aortoplasty for aortic coarctation

Renal denervation for resistant hypertension treatment

Right heart catheterization

Pulmonary artery angiography

Right heart, pulmonary artery and pulmonary capillary pressure manometry

Pulmonary and tricuspid valvuloplasty

Trans-catheter thrombectomy for pulmonary embolism

Pericardial and myocardial disease study

Endomyocardial biopsy

Embolism retrieval

Left-right cardiac catheterization

Hybrid stent/bypass surgery

Diagnosis for cardiac valves diseases

Pericardial and myocardial disease study

Vena cava filter implant

Transeptal catheterization

Mitral-aortic valves disease studies

Mitral valvuloplasty

Pediatric cardiac catheterization

Diagnosis and treatment for congenital cardiac disease

Closure for intra and extra cardiac defects

Electrophysiology

Arrhythmia diagnosis and treatment

Pacemaker implant and replacement

Cardiac re--synchronization

Internal cardiac defibrillator implant and replacement

Cerebro vascular diseases

Diagnostic brain angiography

Carotid stent implantation

Intra craneal angioplasty

Brain aneurism embolization

Super selective chemotherapy

Treatment for chronic cerebro vascular insufficiency (CCSVI) on multiple sclerosis

Peripheral vascular disease

Diseases of the aorta

Abdominal aorta angiography

Abdominal aorta angioplasty and stent placement

Stent placement for abdominal and thoracic aorta aneurysms

Aortic thrombectomy

Peripheral arterial disease

Peripheral arterial angiography

Treatment for acute and chronic limb ischemia (limb rescue)

Diabetic foot treatment

Splanchnic arteries angiography

Splanchnic arteries angioplasty and stent placement

Mesenteric thrombosis treatment

Reno-vascular disease

Selective renal artery angiography

Renal artery angioplasty and stent placement

Gynecological diseases

Uterine embolization

Uterine fibroids Post--partum hemorrhage

Anomalous placental implantation (placenta accreta/percureta)

Ovarian vein embolization for chronic pelvic congestion treatment

Erectile dysfunction

Pelvic arteries angioplasty and stent placement

Diseases of the veins

Superior and inferior limbs venography

Vein thrombectomy (vein thrombosis and deep venous thrombosis)

Vein angioplasty and stent placement

Hemodialysis

Obstructed arterio--venous fistulae angioplasty and stent placement

Cancer

Intra--arterial super--selective chemotherapy

Stem cells

Intra--arterial super--selective lipid derived stem cells therapy

Neurological diseases

Multiple sclerosis (possible combined treatment for CCSVI correction)

Post--stroke
